**Dear Stakeholder,**

Warm greetings from **Team Nextgen Hackathons!** We are pleased to share this brief impact summary of the **Innovation Summit Hackathon**, a large-scale, industry-aligned initiative focused on real-world problem solving and innovation across technology, artificial intelligence, healthcare, finance, sustainability, and enterprise domains.

## ***Event Scale & Participation***

Total Teams Registered	438
Total Candidates Participated	~1,498
Teams Shortlisted from PPT Submissions	12
Teams Invited for Live Presentations	10
Teams that Presented Live	9
Winning Teams	3

## ***Governance & Leadership Involvement***

- 7 University Professors and Deans
- 10 Coordinators managing end-to-end event operations
- 2 Keynote Speakers delivering thought leadership sessions on Artificial Intelligence and its applications

## ***Overall Impact***

The Innovation Summit Hackathon successfully enabled collaboration between industry experts and candidate teams, establishing a transparent, multi-stage evaluation framework. The initiative balanced scale with quality, resulting in high-impact outcomes and actionable innovation.

We sincerely thank all judges, keynote speakers, academic leaders, and partners for their invaluable contribution. We look forward to building on this momentum through future hackathon initiatives.

**Warm regards,**

Team Nextgen Hackathons
